Framed Height: 57.5 cm (22.6")

Framed Width: 72 cm (28.3")

Description

Becker made a number of studies of cattle, continually seeking to improve his understanding of the animals and develop compositions featuring them. In the present work we see him perfecting this understanding in the two larger drawings and making a brief compositional study at the top of the sheet. It was quite common for Becker to turn the sheet as he worked and make studies facing in different directions. What especially comes over in this drawing is Becker’s remarkable energy.
